

# BioAxxis® ThumbLock™

## Commercial-Grade Audit Trail

- Audit Trail Upgrade (ATU)
  - Includes: Audit Trail software and 1GB Flash Drive
- How It Works
  - 1 flash drive supports all locks in a facility
  - Insert flash drive in bottom of inside unit USB port
  - Download AT records
    - Up to 20,000 records stored in each lock at any time before over-writing
  - MS Access-based AT software provides excellent tracking and is exportable to MS Excel

# BioAxxis® ThumbLock™

## Audit Trail Screen Shot

The screenshot displays the BioAxxis ThumbLock Management software interface. The main window, titled "Query and Print Record", shows a table of system events. The table has the following columns: Access Time, Lock ID, Lock Name, User ID, User Name, and Operation. The data is as follows:

Access Time	Lock ID	Lock Name	User ID	User Name	Operation
2009-02-16 13:48:26	00	Polished Brass	001	Seen	Unlock by Password
2009-02-16 13:48:58	00	Polished Brass	001	Seen	Unlock by PF
